Sansevieria in a concrete caspo

Price: 50.00?€

Brand: Dariveris Flowers

Dimensions: 0.00cm x 0.00cm x 0.00cm

Product Code: DRV95

Short Description Sanjiveria

Description

An ideal gift for an office but also a perfect choice to decorate even the most demanding corner of your home.

Sansiberia is known as "mother-in-law's tongue", because of its pointed and hard leaves .

An indoor plant, perennial, with a very fast growth rate and with minimal requirements. It stores water in its pointed leaves, so it doesn't need much watering. Keep it away from direct sunlight or heat sources inside the house. Ideal temperature 17 to 28 degrees Celsius.

Due to seasonality, market conditions and availability we may need to replace flowers, greenery, plants and vases or pots.
